THIS COUNTRY NEEDS CHANGE.

Our fantastic country has great untapped potential. We are a nation of hard workers, creative thinkers and brave entrepreneurs. With a cultural heritage and economic fabric that the world can be jealous of. In short, **the ideal fuel to move forward at full speed for growth that benefits everyone.** And yet we often miss opportunities, fight yesterday's battles, and end up standing still.

THIS COUNTRY NEEDS IDEAS.

Itinera brings together recognized experts from home and abroad, translates in-depth research and critical analysis into concrete policy recommendations, and acts as a sparring partner for policymakers in the social and political debate.

THIS COUNTRY NEEDS LEADERS.

But insights are nothing without people to act upon them. That's why we need leaders. Drivers of change who see how things can be improved and will not rest until they are. A rare combination of vision and ambition that seems rarer today than ever.

COULD IT BE YOU?

**TIME TO EXPAND
BOTH YOUR MIND
AND YOUR NETWORK.**

JOIN US FOR AN EXCLUSIVE EXPERIENCE THAT COMBINES INSIGHTS, IMPACT AND NETWORKING.

If you are a young, under 30, leader in politics, the economy or other societal fields, we invite you to **sign up for the two-day Itinera Summer Academy**. You will **meet other like-minded young emerging leaders** to discuss today's big societal and geopolitical challenges for Belgium, Europe and the world.

DAY 2 (JULY 24TH)

Day 2 takes place at our own **Itinera-offices** in Brussels, featuring an inspiring line-up of our own fellows and thinkers:

- "The world after the end of globalisation" with **Marc De Vos**
- "From Healthcare Crisis to Healthcare Reform" by **Johan Albrecht**
- "How Do We Become Resilient Again?" with **Julien De Wit**
- "Belgium's Money Matters" with **Johan Albrecht**
